

FREE DocBox Print Driver for DocBox and TransactionDesk

Upload documents into DocBox and TransactionDesk without logging into the online system

Now there is a quicker and easier way to get documents into your transaction files and your DocBox inbox using the new DocBox printer by Instanet Solutions.

- 'Print' into DocBox and TransactionDesk by using the print function on your PC.
- Email and Fax documents as well, saving you time when distributing documents.
- Select 'File' > 'Print' in most applications and you can now upload, fax and email your electronic documents all in one step, as shown.
- All documents uploaded, faxed and emailed are converted to PDF files.
- No need to login to DocBox or TransactionDesk via your browser.
- Save clicks and save time.

This is a FREE upgrade!

DocBox Print Driver FAQ

1. How do I get the print driver?

Login to your DocBox/TransactionDesk account. Go to Settings>My Preferences>Print Driver Settings. Download and read the User Guide available on the page. This will provide you all the instructions you need to use the print driver. The print driver file download is also available on the Print Driver Settings Page.

2. Why do I need a password?

Because the print driver accesses your account, we need to make sure the system is secure. Most of our users login to DocBox/TransactionDesk via their MLS, association or brokerage website. The new password management tool will let you set a password for the print driver that you know and can remember.

3. Does it matter if my DocBox or TransactionDesk or Print Driver password is the same or different than my MLS, association or brokerage site password?

No, changing your DocBox or TransactionDesk password has no effect on any other passwords. You can make it what you wish. Likewise, if you change your MLS, association or brokerage password it will not affect your DocBox/TransactionDesk password.

4. What systems support the print driver?

It will work on virtually all XP, Vista and Windows based PCs. If it proves popular, we will explore options for Mac users as well.

5. How much does it cost?

It's free with any DocBox/TransactionDesk account. The only caveat is that you must have faxing pages and storage available on your account. If you have any questions about that, check the 'Summary of Additional Services' on your DocBox/TransactionDesk home page by clicking the down arrow to the left of the text (shown below).
