

I.

Quick Start Guide

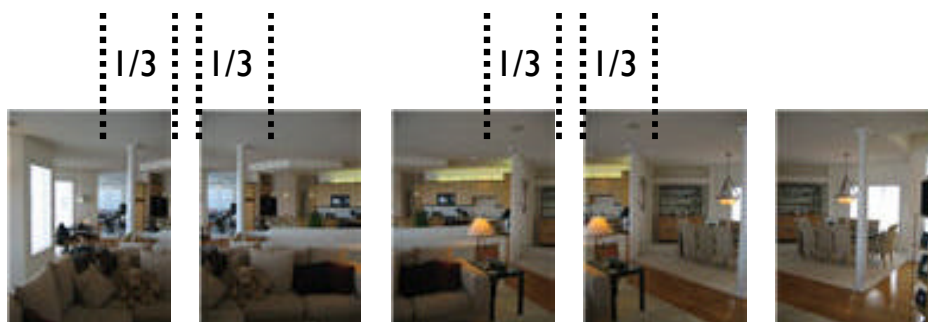

There are three steps to taking your own Virtual Tours—beginning with the photos.

I. Shoot Overlapping Photos

1. Flash OFF, auto ON
2. Hold camera to your eye.
3. Plant your feet, plan your shots; rotate upper body

Look for 1/3 - 1/2 overlap between your photos

2.

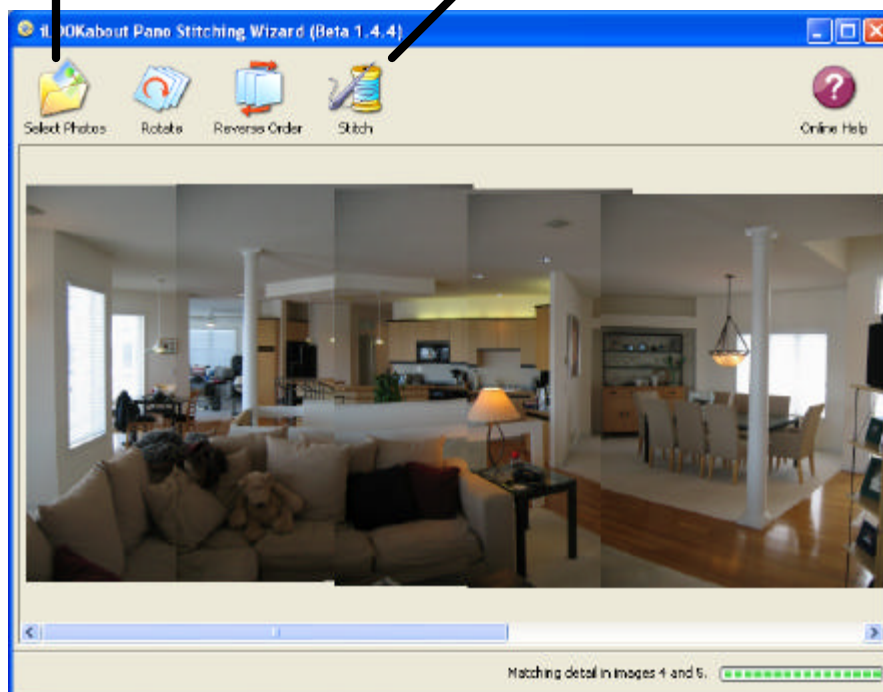

Quick Start Guide

If you don't have the PanoStitching Wizard yet, download it and save to your desktop.

2. Stitch & Save the Photos

First, open your photos

Then, click Stitch—one click

After you click “Next,” you’re asked to save the photo—remember where you save it.

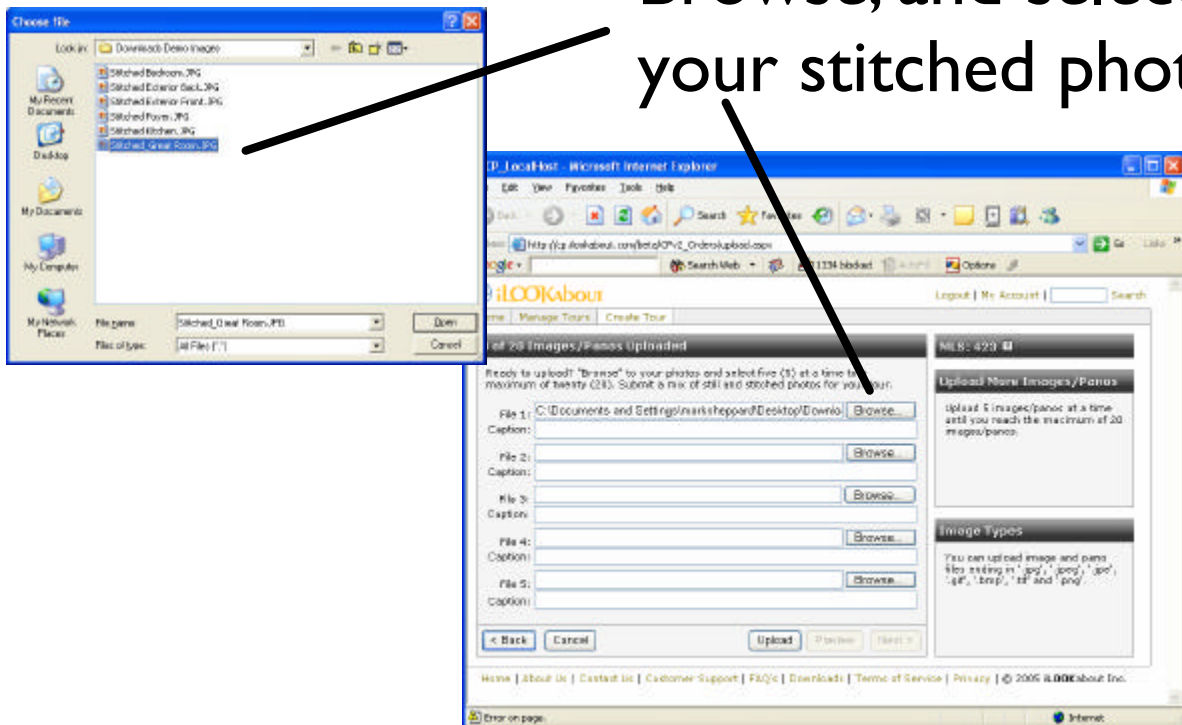

3.

Quick Start Guide

Upload your stitched photos to create your virtual tours automatically.

3. Upload and “Voila”

Browse, and select your stitched photos

When all photos are uploaded, and the order is processed, the Virtual Tour will be processed and linked automatically.
