

Realcomp's MLS Data Coverage Areas Highlighted!

WHAT DOES REALCOMP'S MLS DATA COVERAGE LOOK LIKE?

Our MLS coverage area is defined as the "entire state of Michigan", which means our MLS Subscribers are required to submit all Michigan listings to Realcomp for MLS publication.

With over 10,000 REALTOR® subscribers participating in Realcomp, our systems house over **2-million** on and off market listings. However, the counties with the highest concentration of listing coverage are highlighted on the map at the right in various shades of orange. Realcomp offers...

- More than 500,000 on-market & off-market listings for each of the following counties: Macomb, Oakland, & Wayne;
- Between 78,000 and 128,000 total listings in Genesee, Livingston, and Washtenaw counties each;
- Between 33,000 and 37,000 total listings in Lapeer and St. Clair counties each;
- Between 5,000 and 11,500 total listings in Jackson, Tuscola, Shiawassee, & Monroe counties each;
- Between 1,000 and 5,300 total listings in Huron, Lenawee, Sanilac, and Ingham counties each; and
- Over 1,000 listings in other areas of Michigan (and beyond).

Color Code Key
Shades of Orange—Areas of highest concentration of listings
Green—Data sharing partner organizations
