

## Adding Additional Forms Libraries

There are times that, after your registration, you may need to add additional form libraries such as a new library becoming available or one that you may have missed when registering. To add additional libraries, follow the steps below.

1. Select SkySlope from the Realcomp Dashboard.

2. Click on your initials in the upper right corner to open the menu and select "Libraries".

3. Your current libraries will show at the bottom of the page. Use the search bar to search for the name of the library, click on the name of the library (board/association) and click Add on the right side. You will see this library added to your libraries at the bottom of the page.
