

How to do a Map Search CMA in RCO3®

- 1. After logging Into RCO3[®], hover over Search.
- 2. Choose your desired property type to search. We will use Residential > Quick as the example here.
- 3. Click the MAP tab in the top center of the criteria page. Enter street number, street name, city, state and zip code of the subject property.
- Choose RADIUS around subject property. Look for Map Area Selected in red-if it stays black, RCO3[®] did not locate the address and you must refresh your screen and start again.

10. Select Square Footage, Architecture Style or any other desired criteria. Be sure to select YES or NO for Garage & Basement.

- 11. Double check results. If you have too many then refine criteria with additional features of the subject property. If you don't have enough results, try a few of these suggestions:
 - a) Expand the radius
 - b) Expand the Beds, Bath.Lavs or Square Footage
- 12. Click Results and choose the best properties that compare to your subject.
- 13. Change your DISPLAY to Summary to review all the properties and click the MLS Number for additional information.

name).

14. Choose ANY flyer that states "CLIENT" when printing (it removes the list agent's

15. Select properties to add to them to your RCO3[®] CMA or send them to Cloud CMA to create the CMA report for your customer.
